A lot of my friends belong in politics, and it was inevitable that I should land in politics myself. At the beginning it was simply a matter of supporting candidates who were close friends and campaigning for them, mainly among the Filipino community. An unsuccessful bid for San Francisco Supervisorship, however, was approached in the spirit of gaining valuable experience. The lessons I learned cannot be found in any textbook, and I will treasure for a lifetime.

* In general my involvement in politics has resulted in nothing but good for the Filipinos I represent, by enhancing our stature as well as gaining concessions lobbied by Filipinos. I hope I have paved the way for other Filipinos gaining the esteem of important citizens of this country. Jokingly, of course, one might ask: Why not an Asian for the Presidency of the U.S. sometime in the near future?

The following pages show my favorite memories of this part of my life.

Honorable George Deukmejian
Governor
Sacramento, California

Dear Governor:

I have the honor to recommend Commissioner SALLY FAMARIN as your Liaison Officer to the Filipino-American Community.

While I do not know of any commitment on your part to appoint one, it would certainly be appreciated if the third largest minority group in California would have a representative in your staff.

Commissioner Famarin has been actively involved in our Community for the last twenty years. I join the countless Filipino leaders who commend her very highly for the position.

Best wishes.

Very sincerely,

DISTRICT ATTORNEY

Dear Governor Elect Deukmejian:

Sally Famarin is a leader in the Filipino-American community in San Francisco and Northern California. She has served as Commissioner on the San Francisco Commission on Historical Preservation. Her activities and interests involving social, charitable and cultural organizations are far too many to list.

Sally Famarin is also a person of intelligence and mature judgment. She has the willingness to work diligently and has been successful at every task in which she has been involved.

I highly recommend Sally Famarin for a position that involves liason with community groups, particularly with Filipino groups where she is one of the most widely respected members of the community.

Very truly yours,

Just a line to say thank you for your gigantic effort which assured my success in the last campaign.

You are a real "take charge" person and your initiative and diligence paid off in a meaningful way. It is rare to find a woman as politically understanding as you. You demonstrated the important qualities of perseverance, patience and being able to get people to work together. I was fortunate you were part of my team - a very important part.

I fully appreciate the many things you did - the many days you worked and the problems you overcame.

Again my warmest and sincerest thanks, Gratefully,
Peter.

Response:

The Hon. Mayor Cortes said in a message which he sent to San Francisco last September: "Mandaue is indeed very proud to have one of her constituents excel . . . by showing the traditional virtues of self-reliance and self-dedication, thus attaining greater heights which have silently but eloquently reflected the praiseworthy traits of the people in our community." Ladies and gentlemen, all the successes and honors were made possible because of the people around me — and you are all part of it.

Of my accomplishments the Hon. Cebu City Mayor Borres said: "Winning such prestigious honors is no easy task, and I can say with all sincerity that the honoree is attuned to the times. Indeed it is a great honor, especially for a woman, to be selected among the leaders in the United States of America. I am very proud to be included in 'Who's Who in America' since this not only recognizes my own self but the Filipino community as well.

President John F. Kennedy has said: "Ask not what your country can do for you, but what you can do for your country." From now on, ladies and gentlemen, it will be "What more can I do for my people, what more can I do for my country?"
